

substantive comments on the Draft EIS will receive a copy of the FEIS.

**SUPPLEMENTARY INFORMATION:** The National Park Service has prepared a Final Environmental Impact Statement, Elwha River Ecosystem Restoration, Olympic National Park, Washington. The FEIS presents the proposed action and alternatives for restoration of the Elwha River Ecosystem and its native anadromous fish runs. The proposed action calls for the removal of the Elwha and Glines Canyon Dams to accomplish the Secretary of the Interior's objectives, as directed by Public Law 102-495, the Elwha River Ecosystem and Fisheries Restoration Act of 1992, to restore the river's ecosystem and its native anadromous fish runs.

The draft environmental impact statement (DEIS) for this action was released for public review in October 1994 **Federal Register** Vol. 59, No. 213), and the public comment period closed on December 23, 1994. Both the DEIS and FEIS analyze the proposed action and four alternatives for restoring the Elwha River ecosystem. The four alternatives include no action—continuing to operate the dams without anadromous fish mitigation; dam retention—operating the dams with addition of mitigation; remove only Elwha Dam; and remove only Glines Canyon Dam.

The FEIS contains all letters received during the public comment period and responses to substantive comments are contained in a question and answer format. A summary of comments received during public workshops on the DEIS is also contained in the FEIS.

The no action period on the FEIS will expire 30 days after the Notice of Availability of this FEIS. This programmatic FEIS is connected to a second, implementation EIS currently being prepared which will analyze site-specific alternatives for removal of the dams and the management of sediment.

The DEIS and FEIS have been completed by the National Park Service in cooperation with the U.S. Fish and Wildlife Service, Bureau of Reclamation, Bureau of Indian Affairs, and the Lower Elwha S'Klallam Tribe.

Soo Line Railroad Company (Soo) has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon a .5-mile portion of its line of railroad, known as the Rice's Point Trackage, from milepost 288.17+/- to milepost 288.70+/-, at Duluth, in St. Louis County, MN.

Soo has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) all overhead traffic previously routed over this line has

been rerouted to alternative lines; (3) no formal complaint filed by a user of rail service on the line (or by a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental reports), 49 CFR 1105.8 (historic reports), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on September 7, 1995, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,<sup>1</sup> formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),<sup>2</sup> and trail use/rail banking requests under 49 CFR 1152.29<sup>3</sup> must be filed by August 18, 1995. If the notice of exemption contains false or misleading information, the exemption is void ab initio.

<sup>1</sup> A stay will be issued routinely by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Commission's Section of Environmental Analysis in its independent investigation) cannot be made prior to the effective date of the notice of exemption. See *Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1989). Any entity seeking a stay on environmental concerns is encouraged to file its request as soon as possible in order to permit the Commission to review and act on the request prior to the effective date of this exemption.
